

Memo 346.19

To: All Club and District Presidents and Secretaries

From: Women's Bowls NSW Board of Directors

cc: Womens Bowls NSW staff

Date: 9th August 2019

Re: **2020 Pennant Grading**

We take this opportunity to advise that the Womens Bowls NSW Board of Directors recently considered a motion and have taken the decision to introduce player grading for the 2020 Pennant competition.

The topic was recently discussed at the District President's Conference and we await feedback and suggestions from the Districts to assist the State Match Committee in developing and introducing grading for 2020.

Whilst the development and requirements of grading are yet to be finalised for next year, we advise all clubs that it will be introduced so that they may consider providing feedback and perceived or possible issues to the committee to consider during the implementation process.

It is the Directors position that player grading for Pennant is a necessary requirement to strengthen the competition and provide a fair and equitable competition for all clubs across all grades.

Further details will be released in the near future.
